### SUMMARY

Motivated and detail-oriented software developer with 4 months of hands-on experience at Yalamanchili. Gained practical exposure to software development life cycle and worked on real-time application features. Skilled in front-end and back-end technologies including Java, Spring Boot, HTML, CSS, and SQL. Collaborated with cross-functional teams to debug, test, and deploy scalable solutions. Eager to continue learning and contribute to innovative development projects in a dynamic environment.

### TECHNICAL SKILLS

**Languages:** Java, JavaScript, SQL, HTML, CSS  
**Frameworks:** JDBC, Servlet, Spring Boot  
**Tools:** Git, VS Code,  
**Databases:** MySQL, SQL

### EXPERIENCE

#### Yalamanchili Software Exports Pvt. Ltd.

April 2025 – Present

Software Developer

Chennai, India

- Developed robust backend modules using **Java** and **C++**, ensuring optimized performance and system reliability.
- Designed and executed efficient **SQL** queries and procedures to support data-driven application features.
- Utilized **JavaScript** for backend scripting, enhancing automation and validation workflows.
- Contributed to the development of in-house tools and APIs used across multiple enterprise-level systems.

### PROJECTS

#### CRED OPERATION

HTML, CSS, JavaScript

Mar 2025

- Built a functional CRED (Create, Read, Edit, Delete) operations webpage using HTML, CSS, and JavaScript, allowing users to manage data efficiently through a clean user interface.
- Implemented form handling and validation in JavaScript to ensure only valid entries are submitted and displayed dynamically.
- Styled the entire interface using custom CSS, focusing on layout, color consistency, and user-friendly design for a seamless experience.
- Developed core features like data display in tables, edit/delete functionality, and real-time updates without page reloads using DOM manipulation.

#### Weather App

HTML, CSS, JavaScript

May 2024 – June 2024

- Developed a web-based weather application using HTML, CSS, and JavaScript to display real-time weather updates.
- Integrated the OpenWeatherMap API to fetch and display current weather conditions for any city worldwide.
- Designed the interface with a focus on simplicity and responsiveness, ensuring accessibility across devices.
- Implemented dynamic DOM updates to present temperature, humidity, and weather status in real time based on user input.

### CERTIFICATIONS

#### Java Full Stack Developer

Sep 2024 – Apr 2025

QSpiders, Chennai

- Completed comprehensive Java Full Stack Developer training covering both frontend and backend technologies.
- Gained hands-on experience in Core Java, JDBC, Servlets, JSP, Spring Boot, HTML, CSS, JavaScript, and database concepts using MySQL.
- Worked on real-time mini projects and participated in mock interviews, improving both technical and problem-solving skills.

### EDUCATION

#### Bachelor of Science in Computer Science

2021 – 2024

Nallamuthu Gounder Mahalingam College

Chennai, India
